CALL FOR PAPERS

Aviation Symposium 2011

*Contemporary Issues in Aviation
Education and Research*

**05-06 July 2011
Wellington
NEW ZEALAND**

Massey University School of Aviation, the Royal Aeronautical Society, New Zealand Division, and the Aviation Industry Association of New Zealand have great pleasure in announcing the second Aviation Education and Research Symposium on 05-06 July 2011, in Wellington, New Zealand.

We invite papers for presentation at the conference addressing issues of relevance to the aviation industry including safety, security, environment, technology applications, management, economics and finance.

This event is intended as a forum for disseminating research and discussing current issues in aviation, with an emphasis on bridging theory and practice. It will also present an opportunity for “a meeting of the minds” for academics and practitioners in the aviation industry.

Papers will be selected through a peer review process conducted by Massey University and will be included in the proceedings to be published after the symposium (unless specifically excluded by the author).
